

SABARI ABISHAKE.K

FULL STACK DEVELOPER

sabariabishake17abd@gmail.com

+91 9791675458

SUMMARY AND STRENGTH

- 2 years of experience in development of software applications that includes web based, and intranet applications using Microsoft Technologies
- Full Stack Developer with extensive experience in design, study analysis, coding, testing, and implementation, object-oriented design, deployment of Internet/Intranet and Client/server applications
- Experience in Web and mobile Technologies like Angular JS, Mobile development using HTML5, JavaScript, Xamarin, Visual Studio Code, Microsoft Expression Blend, CSS, Ajax, and Photoshop.
- Certified in Developing .Net (IBM) - Certified 2024

EDUCATION

- BE Computer Science, Anna University, 2023.

TECHNICAL SKILLS

- ASP.Net, Java, Silverlight, Microsoft Azure, Angular JS, Angular 5, C#, Entity Framework, ADO.Net, Node Js.
- Design tools UML (Use cases, Class Diagrams, Sequence Diagrams)
- Databases SQL Server, MySQL, Cosmo DB, PostgreSQL, DynamoDB, MongoDB
- Quality Assurance
- AI Tools: LangChain, Streamlit, OpenAI, Groq LLM, Pinecone, ChromaDB, Flowise, drag-and-drop AI builder

PROFESSIONAL EXPERIENCE

DOD IT SOLUTION

MAR2023-PRESENT

Designation: Full Stack Web Developer

Projects:

- boons, utctravel, uttlity bills pay,Reconbus, Ongocrypto, Bitrecharge
- ChatNova: Smart restaurant chatbot using Streamlit, LangChain, and Groq LLM- LangGraph-based chatbot, Code Assistant, RAG Chatbot, Text Summarizer, YouTube Video Summarizer- AI workflows created using Flowise an

Technologies: .NET Core, Java, C#, ASP.NET Core, MVC, Node.js, Vue.js, Angular, Rest API, GitHub, JIRA, CI/CD with Jenkins for DevOps, MongoDB, LangChain, Streamlit, OpenAI, Groq LLM, Pinecone, ChromaDB, Flowise, drag-and-drop AI builder

Roles and Responsibilities:

- Full Stack Developer with extensive experience in design, study analysis, coding and Client/server applications in .NET Technologies, Web Development and applications using ASP.Net, Java, Silverlight, Microsoft Azure, Angular JS, Angular, C#, Node JS
- Experience in Web and mobile Technologies like AngularJS, Mobile development using Ionic & Cordova, ASP.NET MVC/Web Forms, Android Studio for Android Development, Silverlight/ WPF, Bootstrap, jQuery
- Implemented improvements to boost site performance.
- Developed the mobile applications
- Improved and corrected existing software and system applications.
- Have experience on Web API with Entity framework
- Developed web applications using HTML, CSS and JavaScript.
- Proficient in Angular JS and Angular for building dynamic and responsive web applications, leveraging features such as data binding, routing, and form validation to enhance user experience.
- Experienced in developing single-page applications (SPAs) with Angular, ensuring efficient client-side rendering and seamless navigation.
- Skilled in Flutter for cross-platform mobile app development, utilizing its widget-based architecture to create visually appealing and performant applications.
- Proficient in implementing Flutter's hot reload feature for rapid development and testing, resulting in shortened development cycles and quicker iteration.
- Familiar with Angular Material Design and Flutter's built-in material design widgets for creating consistent and visually appealing user interfaces across platforms.
- Experienced in integrating Angular frontends with backend services using RESTful
- Developed and deployed AI chatbots and intelligent applications
- Integrated AI models with web interfaces for enhanced interactivity
- Used Flowise to visually design, test, and optimize AI pipelines
- Managed full-stack application development and AI backend services
- APIs, ensuring smooth communication and data exchange between client and server.
